Research Title : *Dynamics and stability of impulsive hybrid setvalued integro-differential equations with delay*  
*Dynamics and stability of impulsive hybrid setvalued integro-differential equations with delay*

Descriptipn : We study the dynamics and stability theory for impulsive hybrid set integro-differential equations with delay. Sufficient conditions for the stability of the null solution of impulsive hybrid set integro-differential equations with delay are presented. (c) 2006 Published by Elsevier Ltd.
